

## Call for Entries

AIA Rochester is pleased to announce our 2024 Design Awards. The Design Awards are an ongoing program established to encourage excellence in architectural design, to make the public more aware of our built environment, and to honor the owners, designers, and construction teams of successful projects.

Last year we were able to hold our event in person at the Memorial Art Gallery, and we are so pleased to have welcomed a number of attendees that greatly exceeded our expectations! We again look forward to another lively event in person at The Historic German House on Thursday, June 13, 2024.

Please review the Call for Entries in its entirety, including the schedule, which should allow preparation time for our participants. Visit [www.ajaroc.org/design-awards](http://www.ajaroc.org/design-awards) for up to date information regarding the 2024 Design Awards program.

### Eligibility:

Works of architecture, urban design, and interior design located anywhere in the world by a registered architect who is a member of AIA Rochester, who resides in AIA Rochester's seven county jurisdiction (Monroe, Wayne, Livingston, Ontario, Yates, Seneca, and Alleghany), or whose employment is by a firm located within the above jurisdiction are eligible for all categories. Unlicensed architectural professionals who meet the above criteria are eligible to submit projects in the Unbuilt Category only.

Works of interior design located anywhere in the world by an interior designer who is a member of the IIDANY Rochester City Center, who resides in AIA Rochester's jurisdiction (above), or whose employment is by a firm located within the above jurisdiction are eligible for the Interior Design category.

All works in accordance with criteria in this section and completed after January 1, 2019 are eligible.

Each entrant may submit any number of entries. Submitting architect(s) and interior designer(s) must be responsible for the design of the submission, either solely or in collaboration with another design professional. Design professionals that did not provide a meaningful contribution to the design of the submission are not eligible to submit an entry, but must be acknowledged in the submission. Collaborative local design teams may enter joint submission(s) as a team, or individually by submitting a written release from the other Rochester area design professional(s) involved in the design of the submitted project.

In support of AIA Rochester's goal of promoting architecture, the chapter creates banners for display in public venues throughout the region. The banners are meant to showcase great design around the Rochester Region and help promote our yearly People's Choice Award by using QR codes that engage the general public and allow for greater representation of the community. The banners are created for all entrants and are part of the registration fee.

# 2024 AIA Rochester Design Awards Registration Form

Please complete a separate form for each project submission.

## Architectural or Interior Design Firm Name(s):

---

### Project Name:

---

### Address:

Street \_\_\_\_\_

### Submitting Architect's or Interior Designer's Name:

(must be registered, licensed NYS Architect or IIDANY except if submitting as an Unbuilt project)

---

AIA Member ID# or IIDA# \_\_\_\_\_

NYS License or Certificate Number \_\_\_\_\_

### Contact:

Name \_\_\_\_\_

Phone \_\_\_\_\_

E-mail \_\_\_\_\_

### Fees per Entry:

\$300 - AIA Rochester Members

\$300 - IIDANY Members

\$450 - Nonmembers

Register online at [aiaroc.org/events](http://aiaroc.org/events) - or -

Checks shall be payable to AIA Rochester

Mail to: AIA Rochester

5 Castle Park

Rochester, NY 14620

### Program Schedule:

#### December 1, 2023 - Noon

This Registration Form (emailed pdf or hard copy) and entry fee must be completed/emailed/received by the AIA Rochester Office by noon on December 1, 2023 (or postmarked by December 1, 2023).

#### January 12, 2024 - Noon

Submissions (digital) must be uploaded to the specified location by 12:00 p.m. (once registration is received each applicant will receive a link to an assigned number & folder).

#### February 2024

Jury convenes; winners notified in March 2023.

#### June 13, 2024

The Awards will be presented at an in-person event at the Historic German House.

## Project Information:

### Architect:

## **Project Categories:**

Select *all* that apply to your project on this page.

New Construction

Renovation

Urban Planning/Urban Design

Historic Preservation

Adaptive Reuse

### Residential

Single Family Detached

Multi Family, Multiple Dwellings

Other: \_\_\_\_\_

### Institutional

K-12

College/University

Municipality

Hospital/Medical

Other: \_\_\_\_\_

### Commercial

Retail

Restaurant

Office

Medical Facility

Other: \_\_\_\_\_

### Industrial

Warehouse

Manufacturing

Flex Building

R&D Facility

Other: \_\_\_\_\_

### Interior Design

Provided as part of an architectural project

Provided independent of an architectural project

### Unbuilt

Unbuilt (Recognizes commissioned architectural design work by practicing architects not yet built or completed)

## AIA Framework for Design Excellence:

Introduced in 2019, AIA's *Framework for Design Excellence* “represents the defining principles of good design in the 21st century. Comprised of 10 principles and accompanied by searching questions, the Framework seeks to inform progress toward a zero-carbon, equitable, resilient, and healthy built environment. These are to be thoughtfully considered by designer and client at the initiation of every project and incorporated into the work as appropriate to the project scope. The Framework is intended to be accessible and relevant for every architect, every client, and every project, regardless of size, typology, or aspiration.”

Since AIA Rochester integrated the Framework into the Design Awards in 2020, we have been pleased to recognize that our entrants regularly incorporate these measures during the design process to create good architecture.

Each entry in the 2024 Design Awards is required to illustrate how it incorporates a **minimum of three Framework** measures.

### **The ten measures in the Framework are:**

1. Design for Integration: What is the big idea behind this project and how did sustainability inform the design concept?
2. Design for Equitable Communities: How does this project contribute to creating a walkable, human-scaled community inside and outside the property lines?
3. Design for Ecology: In what ways does the design respond to the ecology of its place?
4. Design for Water: How does the project relate to the regional watershed?
5. Design for Economy: How does the project efficiently meet the program and design challenges and provide “more with less”?
6. Design for Energy: Is the project energy-efficient and sustainable while improving building performance, function, comfort, and enjoyment?
7. Design for Wellness: How does the design promote the health of the occupants?
8. Design for Resources: How did the design team optimize the amount and makeup of material used on the project?
9. Design for Change: Is the building resilient, and able to easily accommodate other uses in 50-100 years?
10. Design for Discovery: What lessons for better design have been learned through the process of project design, construction, and occupancy, and how have these been incorporated in subsequent projects?

## **AIA Framework for Design Excellence:**

**Optional** – select the Framework measures that your project incorporates if known at this time.

1. Design for Integration: What is the big idea behind this project and how did sustainability inform the design concept?
2. Design for Equitable Communities: How does this project contribute to creating a walkable, human-scaled community inside and outside the property lines?
3. Design for Ecology: In what ways does the design respond to the ecology of its place?
4. Design for Water: How does the project relate to the regional watershed?
5. Design for Economy: How does the project efficiently meet the program and design challenges and provide “more with less”?
6. Design for Energy: Is the project energy-efficient and sustainable while improving building performance, function, comfort, and enjoyment?
7. Design for Wellness: How does the design promote the health of the occupants?
8. Design for Resources: How did the design team optimize the amount and makeup of material used on the project?
9. Design for Change: Is the building resilient, and able to easily accommodate other uses in 50-100 years?
10. Design for Discovery: What lessons for better design have been learned through the process of project design, construction, and occupancy, and how have these been incorporated in subsequent projects?
